

The Physical

Disability Forum

The voice of disabled people across Kent

► Who we are

The Physical Disability Forum was set up in partnership with Centre for Independent Living in 2016, to bring together disabled people and the organisations which support them across Kent as a strong, unified, independent voice.

► What we do

The Forum works with and influences Councils, Providers and Clinical Commissioning Groups across the county to ensure that services for disabled people are effectively shaped and scrutinised by the people who actually use them.

► What you'll get

The Forum provides an opportunity for networking, direct access to decision makers and contacts members regularly to update them on its work.

► The Working Group

The Forum meets once or twice a year in full, but is supported by a Working Group made up of volunteer members who are able to devote a little more time to specific work and consultations. The Working Group meets several times a year at different venues around Kent to drive forward the objectives of the Forum.
